## SHARON'S Blog

Hi, everyone! Who's your favourite sailing star? Mine is Laura Dekker. I think she's amazing! As a child, she didn't use to go hiking or camping. Laura used to sail with her parents, so she was already brilliant by the time she was 16 years old. That's when she completed her famous journey around the world - alone!

The journey was often very difficult for Laura. Sometimes there were dangerous storms, and sometimes there was no wind at all and her boat didn't move. During these times, she used to do her schoolwork online! She missed her family and friends, but she didn't think about giving up.

Laura recorded a lot of short videos on her boat, *Guppy*, during her journey. When she returned, she made a film. Its name is *Maidentrip* and I love it! It shows us how Laura learned to believe in herself, find answers to problems on her own and respect nature. Most important of all, Laura's story teaches us never to give up on our dreams.

- star • alone • storm • give up
- believe in sb • respect • nature

## MISSING GIRLS HOME SAFE

**Amber:** We were hiking in the forest with our parents. It was a beautiful day. The sun was shining and the birds were singing. At around 1 o'clock, Mum and Dad stopped to rest and Lisa and I decided to explore. Mum told us not to go far, but we were playing and we weren't paying attention. Suddenly, we realised we didn't know where we were! Of course, our parents were looking for us by then, but the forest is so big that when we shouted for help they didn't

hear us!

*Amber Morris (12) and her sister Lisa (10) arrived home last night. They were missing for over 24 hours. How did they stay safe in the forests of Oregon? Let's see.*

**Lisa:** We were scared, but we found a river and we started to follow it. We once saw a TV programme that said that was

the best thing to do. We were walking for hours, but we stopped when it got dark. We didn't sleep at all. When we saw the first light of the day we started walking again. We were very hungry, but we didn't eat any berries. Again, we knew from TV that they probably weren't safe. We filled our water bottles from the river and continued walking.

**Amber:** At last, I saw a bridge. While we were crossing it, we saw police officers, police dogs and our parents. They were looking for us. We were safe!

## NEVER GIVE UP

Watch the video. Who flew the first plane?

Wilbur Wright

Orville Wright

Henry Ford

John Kemp Starley

If at first you don't succeed, ...

### TRY, TRY AGAIN

The first bicycles weren't comfortable to ride. Then came penny-farthings – bicycles with one big wheel at the front and one small one at the back. These were more comfortable, but people were always having accidents while they were riding them! Finally, 70 years after the first bicycles appeared, John Kemp Starley invented the safe, comfortable bikes we ride today.

Orville and Wilbur Wright are famous for building and flying the first plane in 1903. However, it didn't work the first time. While Wilbur was flying it, the plane crashed! But the Wright brothers didn't give up. They fixed the plane, tried again and made history.

Henry Ford created a huge car company that is still successful today. In fact, you probably know someone with a Ford car. Henry Ford was working for Thomas Edison when he built his first car in 1896. It worked very well, but Ford didn't know anything about running a business. His first two companies closed before they made much money, or many cars!

## TRAVEL TALES

Watch the video. How long is the journey from Athens to Mykonos on the slow boat?

Last summer, I visited Greece with my parents and brother. We flew from London to Athens, and then we got on a boat to Mykonos. It was a beautiful sunny day, and we were all happy to be on holiday.

Travelling on the boat was fun. After about four and a half hours, the boat stopped at an island and we got off – but we couldn't find the bus to our hotel! While we were waiting, my mum went to ask about the bus. When she came back, she looked confused. "What happened? Who did you talk to?" my dad asked. "We are on the wrong island", Mum said. "Where are we?" we asked. "We are on Tinos. We got off the boat on the wrong island. We have to get on the next boat to go to the right island", Mum said.

We spent the day walking around the town. We bought some souvenirs, took selfies and ate some delicious Greek food. We liked Tinos a lot. In the evening, we caught the boat to Mykonos. We weren't upset about our mistake. In fact, we were pleased that we saw another Greek island!

Sally Mills

All houses in Mykonos, or the Island of the Winds as people call it, are white with blue, red or green doors and windows. That's the rule.

# Sing it!

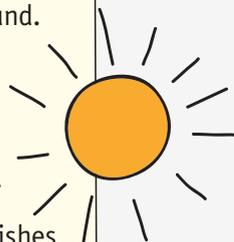

1  Listen to the song. Why is the singer lucky?

Day one, we arrived, got off the boat.  
The sun so hot, no need for my coat.  
Day two, we were sightseeing in town.  
All day we were walking all around.

*And we loved it.  
We had the best holiday.  
Yeah, we loved it.  
And yeah, we wanted to stay.*

Day three, came true all of our wishes  
Eating out, trying local dishes.  
Day four, out to sea on a boat trip.  
Jumping in warm waters off the ship.

Day five, we were almost at the end.  
Buying souvenirs and gifts to send.  
The next day, it was back home for us.  
But hey good luck 'cos we missed the bus!
